

WEBDOLLAR

Simplicity

WebDollar (WEBD) is a cryptocurrency fully native to the World Wide Web, built around the concepts of simplicity, lightness and portability.

In order to encourage the mainstream adoption of cryptocurrency, we need to address all kinds of users. For that, we've created the simplest possible user experience for a cryptocurrency.

Extremely Easy To Use

Just visit WebDollar.io and you can start mining directly on the site, from any device, almost immediately.

- No Installations No Downloads
- No account creation or complicated configurations. Wallet is safely created automatically and stored locally
